

**A new standard  
in individual expression:  
BMW motorcycle accessories.**

# The BMW range of accessories: Functional design to add a new dimension.

BMW have consistently improved the sheer riding pleasure of the BMW motorcyclist and have created a range of accessories that form the machine and rider into one dynamic whole. A new standard has been set in motorcycling clothing and motorcycle luggage, each item having been created for the rider who demands the best in design, comfort and quality.

BMW's range of accessories has been expanded and produced to a rigidly high quality standard and offers the discerning rider top quality, tailor-made items for himself, his passenger and his machine. A new dimension is added to the world of motorcycling, one created for the individual.

# BMW motorcycle harmony in funct

**Leather riding suit.** Top quality, specially tanned cowhide with water repellent finish that still allows the hide to breathe. Fully impregnated colour and padded reinforcement (1) on the back, chest, shoulders, elbows, hips and knees. A fashionable bi-stretch elastication material (2 + 3) is used on the hips and knees to ensure a perfect fit when sitting or standing. Spiral zips used to ensure long life and maximum elasticity.

**Leather vest.** Warm and comfortable, it can be zipped to the leather trousers for a windproof fit. Can be worn with or without the jacket.

# With BMW, rain protection also means better visibility for other road users.

**Rain overall.** Bi-elastic material with safety reflector patches (1) giving high visibility both day and night. All zips and fasteners are double

covered and the flexy connection (2) between the jacket and the trousers provides full adjustment and comfort.

Easy access to pockets and a special heat shield material below knees to protect the suit from exhaust pipes and engine burns.

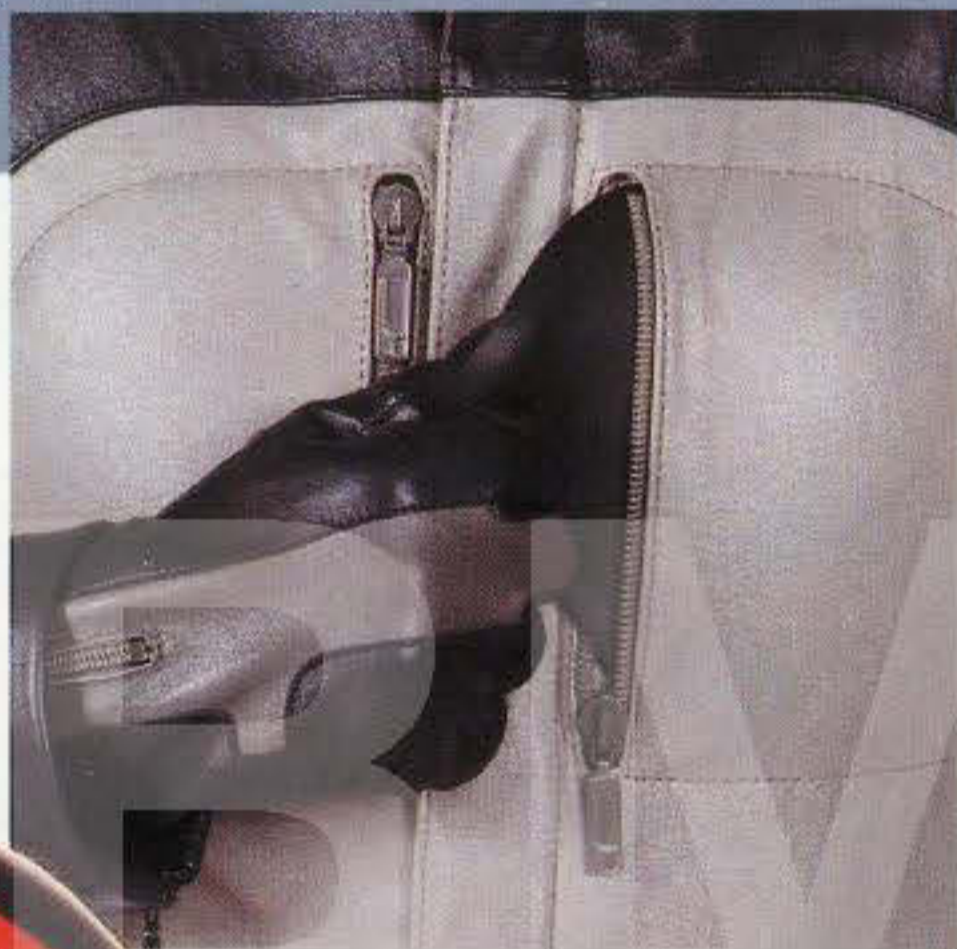

# clothing: function and design.

**Safety vest.** Made of a bi-elastic, flutter-free material, the safety vest combines fluorescence with reflective stripes and herefore offers maximum visibility for both day and night riding.

**Body belt.** Made of strong but soft cowhide and featuring a reflective stripe across the back. Supports the kidney area and hugs body with its adjustable, stretch fasteners. Can be used with removable leather pouches for intercom system and other items.

**Gloves.** Smooth, soft cowhide with no seams on the palms. Art silk lining allows temperature compensation summer or winter.

**Boots.** Leather inside and out with the addition of a special heavy-duty sole. Wedge heel to prevent snagging on the footrests. Full length zip with special overlap strip to keep out dust and moisture. Stretch tops for optimum fit.

# BMW undersuits: The ultimate comfort.

**One piece undersuit.** Superlight, pure silk overall design. Snug fitting elasticated and slip-proof to warm your entire body. Full length zip and special reinforcement to ankles and wrists. Good also for skiing, hand gliding etc.

**Two piece undersuit.** Made for the worst weather. Optimum fit is ensured by the highly elasticated character of the material used. Insulated lining which allows full breathing effect. Attractive styling. Outer material is charmeuse, inner is pure cotton.

# BMW luggage offers maximum space inside, minimum bulk outside.

3

4

**Inner motocase.** Fits inside all 35 litre panniers. Spacious and easy to carry. Clever zip design allows easy access even when motocase is inside pannier. Can also be used as a practical, smart travel bag when off the machine.

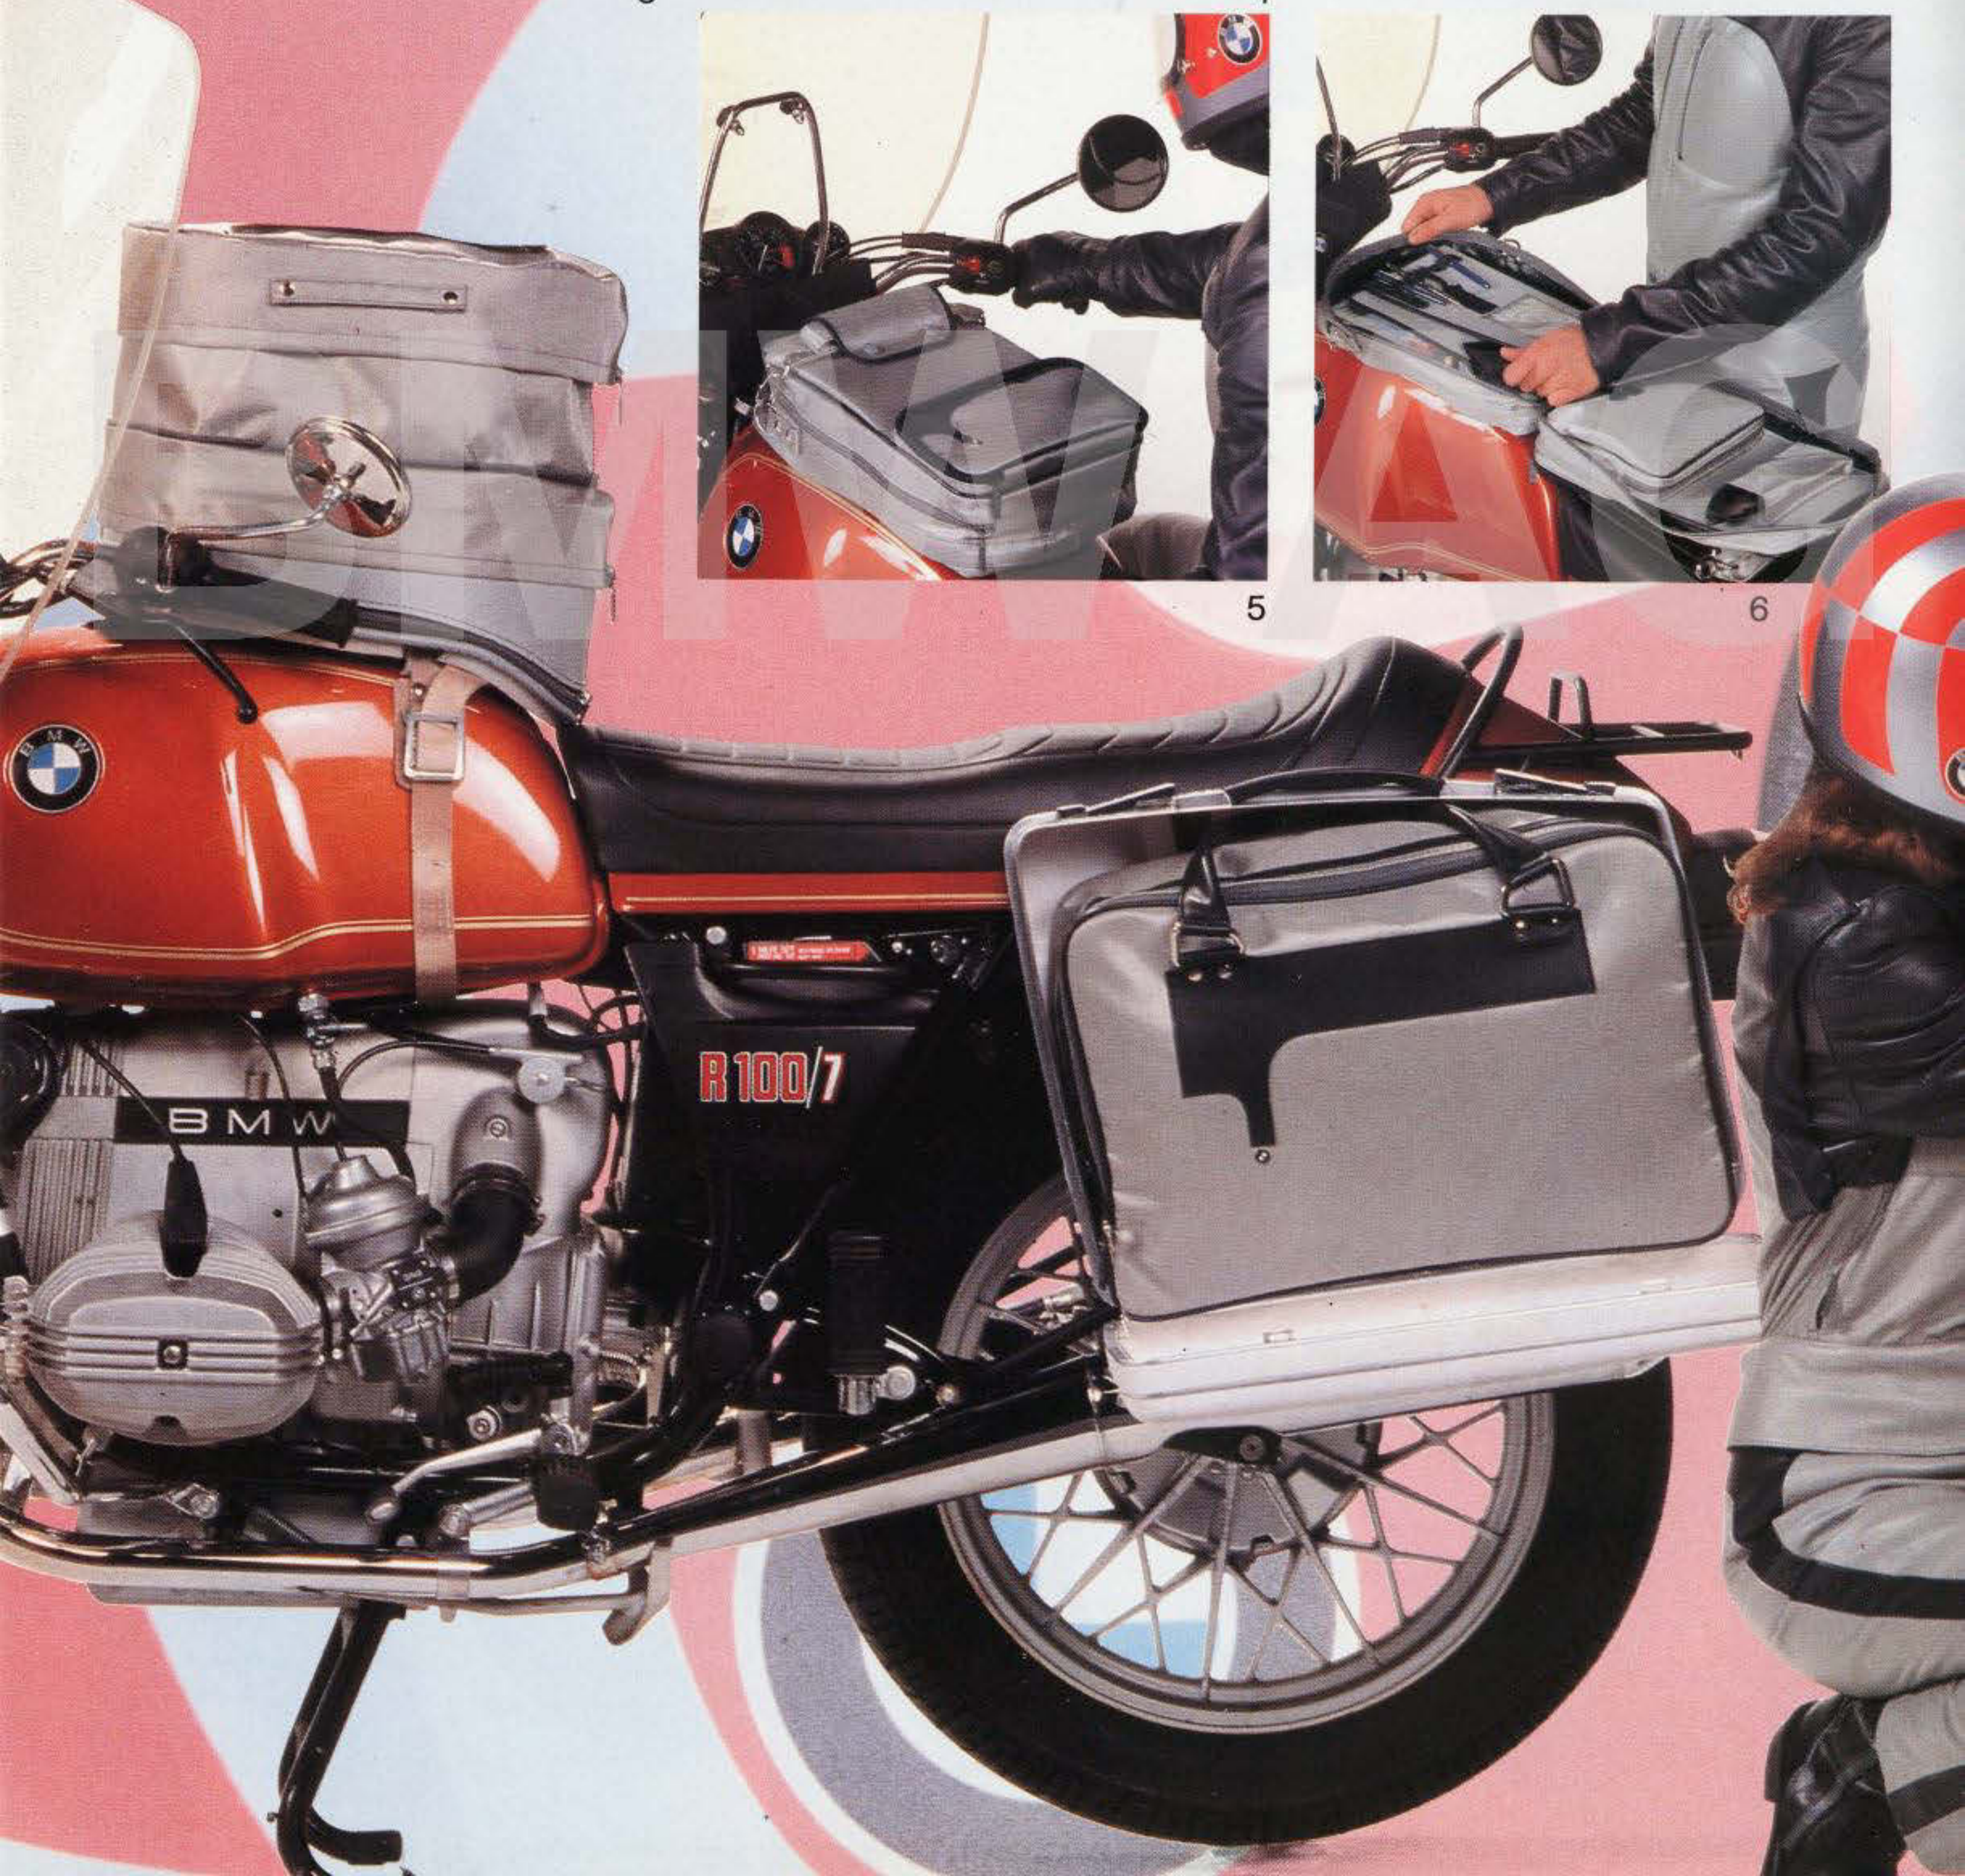

**Tank bags.** Two tank bags that fit a whole range of motorcycles. The strap-on tank bag features a full variation on size (3) thanks to a clever, rainproof zipper system. Detachable transparent map pocket

5

6

# BMW's contribution to better communication.

on top, detachable foam base plate on the bottom. Easily removed for filling of fuel tank and can be used as a double strapped carry-all (4).

**The magnetic tank bag.** Fits any metal fuel tank (5). Heavily padded base contains six powerful magnets whilst inside features document space, storage for wash kit, sunglasses etc. (6). Shoulder strap allows bag to be carried.

**Intercom system.** A fully computerised intercom system with automatic volume control geared to filter noise levels. Microphone and loudspeaker fit neatly into the BMW helmet and many others to give superb voice communication even at high speed. Connect to electrical system by BMW plug.

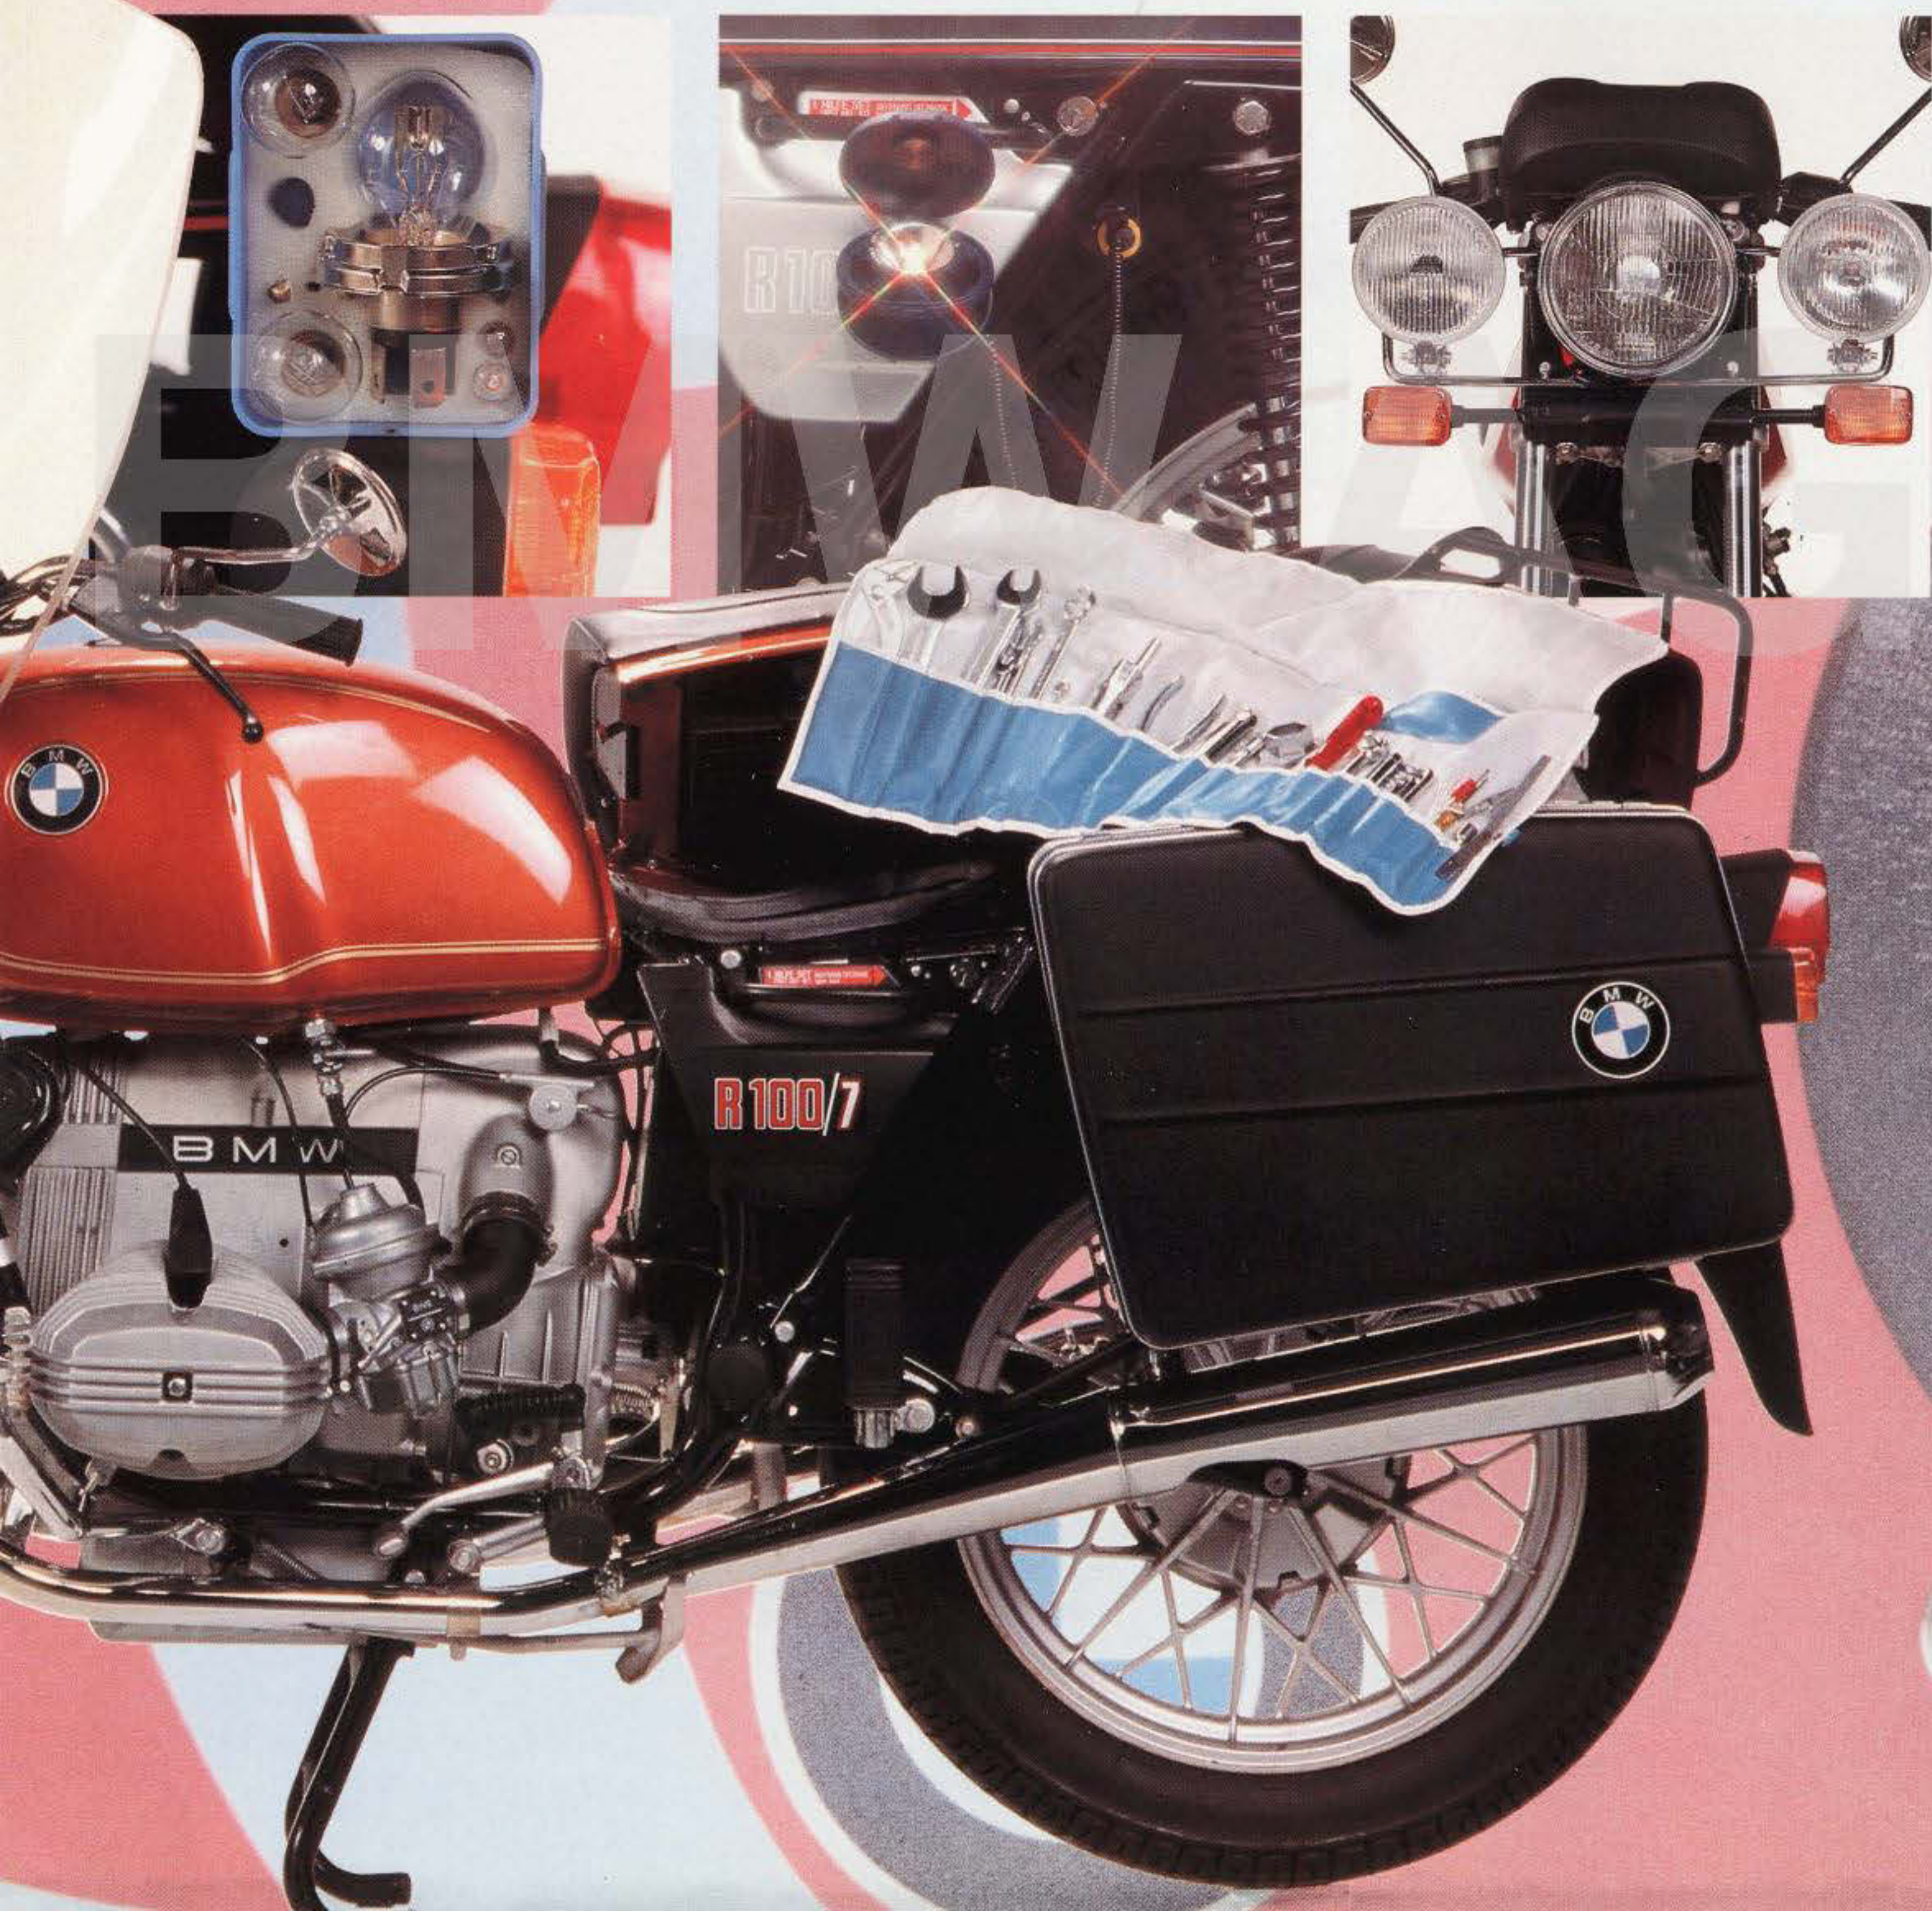

# Genuine BMW accessories - an individualistic way of complementing a superior

**Bulb kit.** The right bulbs for all machines. Halogen or bilux.

**BMW multi purpose lamp.** Easy to use and powerful. Ideally suited for checking maps or as a hand lamp. 12 v halogen reflector with a range of approx. 100ft spiral cable extendable up to 6 ½ ft. Standardised plug for BMW socket. Protective polyamide housing with magnet for fitting lamp to motorcycle and special strap for attaching lamp to clothing.

**Hazard warning system.** An absolute must for all machines from / 6 onward comes complete with cables, switches. Relays and all fittings.

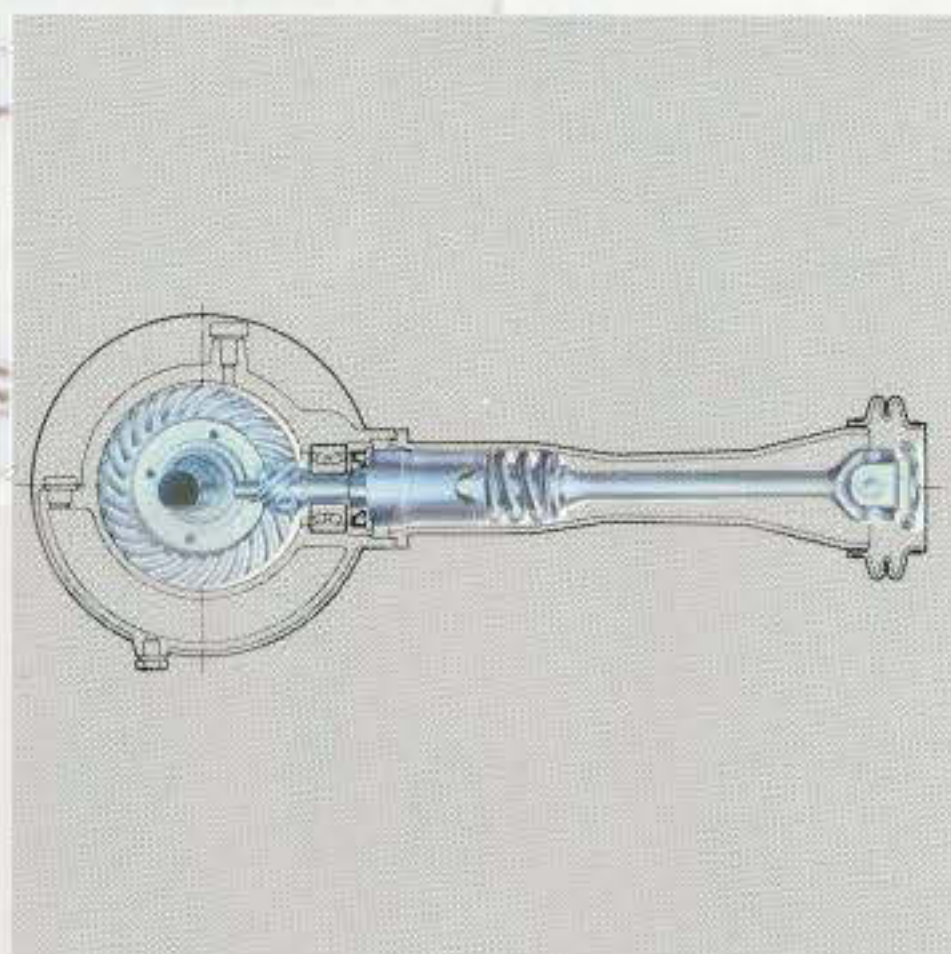

# r motorcycle.

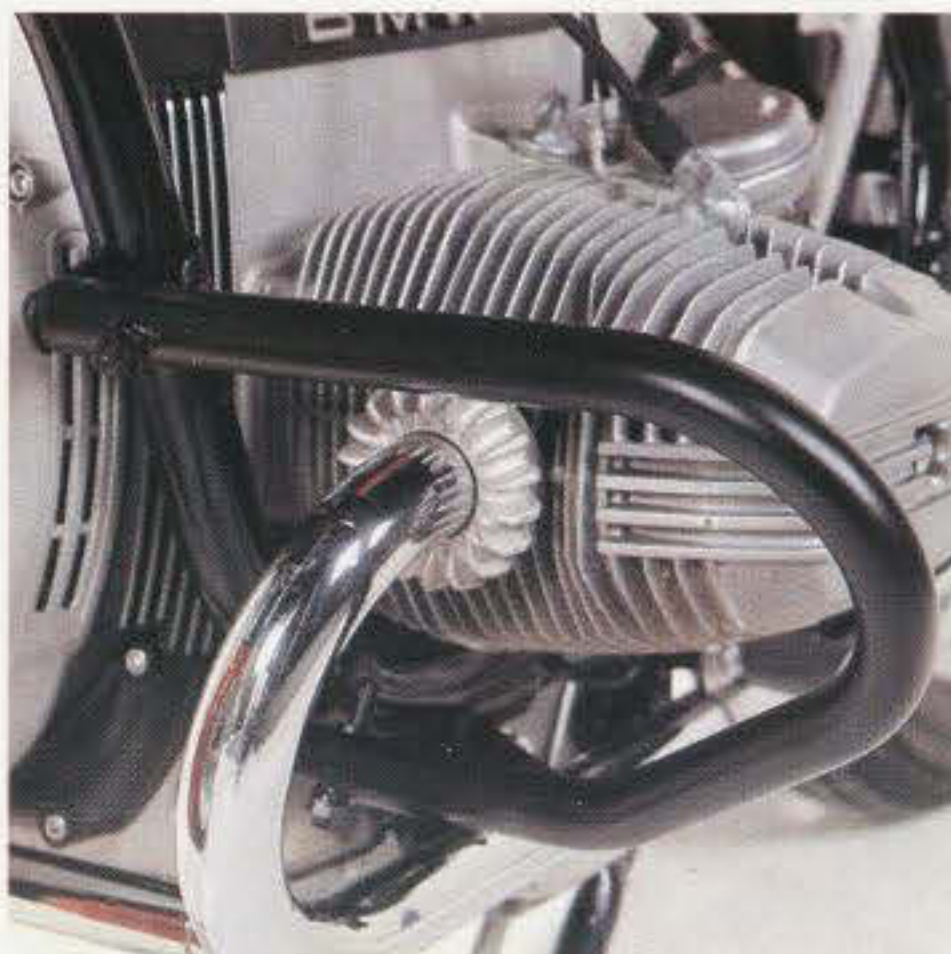

**Additional instruments.** Voltmeter and quartz clock, designed to fit your machine perfectly and enhance its looks.

**Torsion damper.** Dampens peak loads when accelerating and braking, may be fitted to all machines in / 6 and / 7 series.

**First aid kit.** Complies with DIN 13166. Comes in practical, weather-proof box. Universal first-aid scissors, special bandages for burns, plasters and first-aid instructions.

**Super toolkit.** 12 high-quality tools in addition to the standard toolkit includes special filters and side-cutter, allen wrenches, feeler gauges, contact files, tyre pressure testers and ignition timing test lamp. All tools chrome plated.

**Cylinder protection bars.** Either chrome-plated or black.

BMW

# Aerodynamic sophistication.

**BMW touring fairing.** Developed on the basis of the BMW sports fairing and tailored to the specific requirements of touring riders. Integral hand protection and windshield adjustable to three different positions allowing adjustments to match the windshield with the size of the rider, and his seating position. Integrated air ducts at both sides with adjustable air flow and force. Spacious, lockable stowage boxes below the ventilation grid. May be fitted to all / 7 models.

**BMW s-cockpit.** The sportiest way of dressing your motorcycle. With removable windshield. May be fitted to all / 7 models.

**BMW sports fairing.** Planned and developed as an integral part of the overall design, designed and styled after comprehensive wind tunnel tests. The result is a further improvement of the superior handling characteristics of BMW Motorcycles. Performance is increased to an even higher level and the rider is kept comfortable even at very high speeds. The fairing protects the rider from strong winds and weather – may be fitted to all / 7 models.

# Maintenance with genuine BMW spares guarantees the safety BMW riders are used to.

**BMW oil change set.** Contains everything the BMW rider needs to change engine oil (except for the oil itself) quote model and year.

**BMW inspection set.** Contains everything for a periodic maintenance inspection: BMW oil change set, air filters, rings, contact breakers and spark plugs, quote model and year.

**Paint sprays and sticks.** Genuine BMW paint for all machines from / 5 models onwards. Available individually or as a set for metallic paintwork. Consists of single and double component paint.
